21 November 2000

Dear Mr. Fazakerley,

**Re: Safety Warning notice.**

As previous suppliers of ORONA equipment Cable Lift Installations Ltd advise that we have been sent updated installation instructions (version 4) for the ORONA PA-V3F Door Operator.

We draw your attention to the following extract from the installation instructions.

**SAFETY WARNING**

*When the inverter is on, the motor gets electrically charged and, if touched, it causes electrical shock. To prevent the worker from electrical shocks, the motor is covered in casing. Avoid touching the motor and do not remove the cover until the mains power supply has been disconnected from the inverter.*

It should be noted that all parts of the motor are live unless isolated at the point of connection, which is within the control panel. Should you require any further information in the first instance, you may contact Mr D Scrivener at Cable Lift Installations Ltd. Tel. 020 8986 9416.

Could you please distribute this to association members as appropriate.

Yours sincerely,

A handwritten signature in black ink, appearing to be "David Scrivener".
