To: All Members  
cc: The Quality and Technical Committee (1983)

20 February 1996

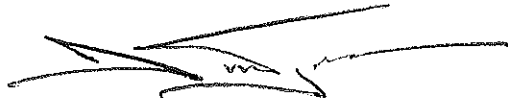

Dear Sir,

## **TMS600 Control Systems - Short Circuited Landing Call Light Feed**

I enclose a letter received from Kone Lifts Ltd.

This is a little different from the usual circular on such subjects in that the company has indicated it is not feasible to provide a technical specification which will suffice for all types of equipment in service. It is therefore requested members servicing this type of equipment contact the company direct.

Yours faithfully,

D M Fazakerley  
Director

25 January 1996

Your Ref:

For the attention of Mr D Fazakerly

Dear David

Re: TMS600 Control Systems - Short Circuited Landing Call Light Feed.

A fault has been discovered on these control systems which may cause uncontrolled movement of the lift.

This fault shall be corrected by a small modification to the controller.

This modification is dependant on the type of hoisting motor drive or hydraulic drive.

The modification details for specific installations can be obtained by forwarding details of the specific site address and TMS600 + drive type(s) to:

KONE Lifts Ltd  
Engineering Support Group  
168-170 Wellington Road South  
Hounslow  
Middx
